JOIN OUR DIVERSE ACADEMIC COMMUNITY

Forty years of experience in focusing exclusively on doctoral programmes, post-doctoral study and research has made the EUI a global leader in high-quality postgraduate education. Our leading scholars in economics, history, law, and political and social sciences create, develop, and supervise innovative and original research.

Our culturally diverse academic community, which hails from over 90 countries, has grown to include world-class experts, visiting to present and discuss their work, and around 80

postdoctoral fellows, who further strengthen the interdisciplinary environment.

An EUI PhD is more than writing a dissertation. Our research, academic, and professional development activities include seminars and conferences within your chosen department, as well as all other EUI departments, the Robert Schuman Centre for Advanced Studies, the Max Weber Programme for Postdoctoral Studies and the School of Transnational Governance.

The diversity of native languages, cultural backgrounds, and past personal experiences make the EUI a true sociological laboratory.

Apart from strong academic training and opportunities, the EUI provides an inspiring and unique human setting that I will never forget.

of Comparative Politics,
University of Glasgow

DEVELOP YOUR INTELLECTUAL CURIOSITY

Upon arrival at the EUI, you are assigned a supervisor for guidance in developing your ideas, while first-year courses provide research training. In your second and third years, you continue to work on your dissertation, which might include fieldwork, data collection, or statistical analysis. You may also participate in departmental seminars and workshops across the Institute, or take advantage of professional or university traineeships and teaching opportunities. During your fourth year, you finish your thesis and prepare for your thesis defence.

EUI supervision is thorough and intense, with high quality ensured through regular assessment. We offer support in developing teaching skills, exchanges with major European and North American universities are available, and there is funding for research missions abroad.

EUI facilities include the prestigious Historical Archives of the European Union, while our world-class social sciences research library has extensive multi-lingual collections and services to support advanced research.

I chose the EUI for a number of reasons, not least broadening my legal academic experience and savouring life beyond the shores of my birthplace. What was originally meant to be a year and a resulting LLM became three years, a PhD and a realisation that I loved legal research.

Siofra O'Leary

President of the European Court of Human Rights

A DYNAMIC MULTI-LINGUAL ENVIRONMENT

Located on the scenic hills of Fiesole, just above Florence, our supportive EUI community ensures that researchers from around the world feel immediately at home.

The variety of nationalities and academic backgrounds represented across the EUI community stimulates lively debate, comparisons and the sharing of knowledge. While we work predominantly in English, the use of other languages is encouraged and supported.

On- and off-campus entertainment and extracurricular activities offer a break from your studies, and our researcher-organised sports and cultural clubs reflect the range of interests pursued by our members. The nearby Tuscan countryside is ideal for hiking or cycling, while nearby Florence, regularly voted one of the world's most beautiful cities, is an unparalleled cultural and artistic centre.
